Llasszzll Lategan

Web Developer with a foundation in JavaScript, I am eager to apply my skills to create visually appealing and user-friendly websites. With 10 years of experience as a Customer Solutions Expert, I bring a deep understanding of client needs and a passion for innovative solutions. I have dedicated my time during my current unemployment gap to earn certifications through Udemy courses, build a portfolio and freelance online. I am excited to embark on as a professional in the field.

2022 - Present

Freelance Web Developer

- Front End Design | HTML, CSS, Tailwind, Material UI
- Backend End Dev | Javascript, NodeJs, Express, Typescript, ReactJs, PostMan
- Database | MongoDB, mySQL, AWS

Daily Core Tools: Git, WSL, Github, VS Code, NPM

Building applications focusing functionality first, based on the project I am working on. Creating interfaces that are visually appealing and easy to navigate, ensuring great user experiences. Coming from a CS background, I understood customer frustration which is why I have a different approach working from a end-user perspective first.

2019 - 2021
